ABOUT ME

I am an ambitious and talented individual with a strong aptitude for software development and information technology. I care deeply about building high-quality software and I'm excited to put my creativity and skills to work and contribute towards creating innovative solutions actively. Fluent in English and technically proficient in programming and networking using, javascript, React, HTML, CSS, bootstrap, Ruby, Ruby on Rails, PostgreSQL, Git, Microsoft Office, networks, and routing. I am eager to learn more while working as a software developer and Information Technology specialist, in working towards problem-solving. I can work well independently or as part of a team, Reliable, punctual, always cooperative, hardworking, willing, and eager to learn new tasks or skills quickly. In addition, I also have an interest in artificial intelligence and UX/UI design.
